Art Unit: 1713

With entry of the reply of February 7, 2007, claims 1-3 and 8 are currently pending and under examination herein.

Prosecution herein is *reopened* so that the following new ground of rejection may be presented.

Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is indefinite as technically inaccurate due to an error in the structural unit designated formula (I); *viz.*, omission of R₂ as a substituent on the carbon atom attached to –Ar-. In consequence, the subsequent reference to R₂ (in line 16) lacks basis in the formula itself. Correction of formula (I) in accordance with the supporting disclosure (e.g., Specification page 1, line 5) is required.

Claim 8 is maintained as allowable for the reasons of record. Claims 1-3 would be allowable if amended or rewritten to overcome the rejection under 35 U.S.C. 112 set forth in this Office action.

In view of the new grounds of rejection not necessitated by amendment, this action is made non-final.

Art Unit: 1713
